

**MFC Safety Requirements for our Patients:**

1. MFC requires all patients to wear a mask or any other cloth material that covers the mouth and nose for the duration of their time in the office.
2. All patients must practice social distancing, staying at least six feet apart from others, while in the office.
3. Patients should come alone to their appointment. If necessary, MFC will allow one additional person to attend the appointment.
4. Patients should not come to the office if they feel ill or are displaying any symptoms, such as fever or cough.
5. MFC will be screening everyone who enters our offices for any exposure or symptoms of Covid-19. If patients are believed to have been exposed and/or display symptoms, MFC will not allow them in the office and will reschedule their appointment.
6. MFC will be taking the temperature of every person before they enter the office.
7. Hand sanitizer will be readily available to all patients.
8. Patients should limit the number of personal items brought into the office.
9. MFC recommends **VIRTUAL VISITS** for follow-up care. Visit our website, **RODEODERM.COM**, for more information.

**MFC's Measures to Promote Patient's Wellness during Covid-19:**

1. MFC staff have been participating in bi-weekly video conferences to review public health recommendations. We aim to always be up-to-date on the best practices to ensure patient safety.
2. MFC staff are wearing masks at all times while in the office. Staff members are trained in sanitation and hygienic care. MFC staff will wear gloves when handling any patient items such as credit cards and insurance cards.
3. MFC staff will be screened and have their temperatures taken before entry.
4. MFC staff will keep patients at a distance of 6 feet apart at all times. MOHS patients will be asked to wait in an exam room or their car/outside, and not in the office waiting room.
5. The exam rooms will be thoroughly disinfected between each patient. All high touch areas will be disinfected regularly throughout the day.
